## not all columns visible

Posted by formad - 2011/06/10 17:36

---

Hello i have 15 columns with data only 11 are visible, try a lot of parameters :\_)

Kind regards matthijs

Hello,

It is hidden by site template. Add the next CSS rule that avoids it:

```
#ja-content,
#ja-current-content
{
    overflow: visible;
}
```

Regards,  
ARI Soft
