Redirekt the Y-Axis

Posted by escho70 - 2011/06/19 23:25

_____

Hello (again),

I want to display a competition, where the 1st place is truely better than a 12th Place.

My Question is it possible and if yes, how do i get the Y-Axis in the ARI GChart Type LineChart from
12
11
10
...
1

To

1
2
3
...
12

I hope you could understand my Problem.

_____

Hello,

Sorry, but the extension can't work in described way.

Regards,
ARI Soft
