
Empty area under data tables

Posted by enricocerica - 2011/07/13 06:47

Hi,

When I'm using data tables model and I have few elements, there is a huge empty space under the table (see attachment) . I don't have the same problem with tiny tables.

Is there a way to avoid that ? <http://www.ari-soft.com/images/fbfiles/images/test-b479cd4007293e7541e619b8e68a3b81.jpg>

Hello,

Could you provide link to page where we can see the problem?

Regards,
ARI Soft

Unfortunately it is a intranet and I cannot provide you any access.
Any idea what I could change in a source or what CSS setting I could override ?

Try to add the next CSS rule to a site template CSS file:

```
DIV.dataTables_wrapper
{
  min-height: inherit;
}
```

Works fine ;)
Thanks
