_____

Hello,

"Content - ARI Data Tables" plugin doesn't provide this ability. The plugin is used that load "ARI Data Table" module into an article.

Regards,
ARI Soft

_____

Last question ... and using arisqltable and mysql database?
If it s possible ... you know the query to see all record(H,B,L) from Categoria conteins value 1
Thanks!
PS: sorry for my english)) http://www.ari-soft.com/images/fbfiles/images/Schermata_2011_07_19_a_09.png

_____

It is correct, use "WHERE" clause in "SELECT" query.
