
Auto-Refresh ARI Data Table

Posted by trevor_stp - 2011/09/04 17:31

Hi,

is it possible to have an ARI Data Table (or the data itself) refresh every XX seconds?

I have a sql column that displays (NOW() - timestamp). What I need is this column to auto-update without refreshing the entire page.

The result would be a countdown timer similar to an ebay auction

Thanks

Trevor

Hello,

Sorry, but the extension doesn't support described ability.

Regards,
ARI Soft
