## Documentation location?

Posted by msm\_portata - 2011/09/15 22:43

---

Silly question, but I cannot find info about the plug-in tags that I need to add to articles.

Hello,

If you want to load "ARI Data Tables" module into an article, use "Content - ARI Data Tables" plugin:

```
{aridatatables moduleId="MODULE_ID"}{/aridatatables}
```

Where MODULE\_ID is ID of the module which you want to load or use "Content - Load Module" Joomla! standard plugin.

Regards,  
ARI Soft

Ah, RTFM

Thank you.
