
Default Sort for ARI Data Tables

Posted by jbenander - 2011/11/23 17:01

Hi,

I am having problems having my tables default sort on a column "Start Date":
<http://athenaabroad.com/programs/study-abroad/italy-florence/details/fees-and-deadlines>

I am using a CSV file, and have the "Sort by" field entered as "Start Date". I also have the Column Index for Start Date sorted by Date, and the column index for Price set as Numeric HTML - the Price column seems to be going as the current default sort.

Please let me know if you can help.

Thanks!
John

Hello,

Could you provide temporary access to your J! backend by email or screenshot(s) of module settings page so we can investigate described problem?

Regards,
ARI Soft

Ok, I resent - let me know if you still don't get it.

Thanks,
John
