
ARI Data Table Not Supporting SAFARI/CHROME

Posted by jmix26 - 2012/01/27 23:27

Am having issue for the sorting and searching filter. It initially displays the results on 1st load, but when I click on any of the sorting columns - the results disappear (content is no longer retrieved).

Hello,

Provide a link to a page where we can see described problem. It can be a problem with a 3rd party extension. "ARI Data Tables" works fine in Safari and Chrome.

Regards,
ARI Soft
