
Html presentation

Posted by Delfosse - 2012/01/30 14:21

Hi !

I wonder the best way to see my table 10 rows by ten rows.

I wonder too if the number of rows can be a parameter written by the user.

Thanks for your help !

Hello,

If you use "ARI Data Table" widget, number of rows can be selected in page size drop-down.

Regards,
ARI Soft
