How To Disable Jquery

Posted by mjmarrett - 2012/02/10 17:57
_____

Hi
The data table presentations are not working

The template I use loads Jquery but some of the ARIsoft plugins load Jquery too.

How do I disable Jquery in ARIsoft ?

Hello,

Open "ARI Smart Content -> Plugins -> ARI JQuery Loader" plugin settings page and set "Needs jQuery load" parameter to "No".

Regards,
ARI Soft

These are the 2 scripts I use but still no tables appear

{arijcsv2table url="images/pipimages/resources/tables/test.csv"}

{aricsvtable file="images/pipimages/resources/tables/test.csv"}

Could you provide a link to a page where you try to use the plugin and if possible to provide a temporary access to your J! backend by email so we can investigate an issue?
