## LOGGED IN USERS FILTERING

Posted by arm - 2012/02/13 00:19

---

Hi All,

I am new to this module, could anyone provide an information on how to filter a query based on the logged in users?

Thanks so much

Hello,

It is possible to use {\$UserId} predefined variable in a SQL query. An example SQL query:

```
SELECT
*
FROM
#__users
WHERE
id = {$UserId}
```

Regards,
