I us table type ARI Table Sorter

Is there any fix to get Paging Buttons shown correctly with IE9?

In standard mode (= Compatibility View OFF) buttons are only narrow lines.

Hello,

Could you provide a link to a page where we can see the problem?

Download and upgrade "ARI Data Tables" module. After this clean browser's cache. It should help.

Thank you!

Now it works.

That was the quickest fix I have ever seen.
