Break on column value (Next page)
Posted by casimir - 2012/03/11 04:32
_____

Hi,

I see we can display 10 rows by default and we can modify.

But I would like break page on column value.

I would like display all rows while column value has not been modified or a row count has not been reached.

Thank you,

Benoit L.

Hello,

The extension doesn't support this ability.

Regards,
ARI Soft
