
Ari Data Tables: is this compatible w Joomla 2.5.2

Posted by studebaker1925 - 2012/03/14 10:51

I have just (within 40 minutes) bought the Data Tables extension but now realise I am using Joomla 2.5.2: Have I made a mistake? Are they compatible?

May I suggest you update the 'Read me' file zipped with the download to reflect that?
