## JDataTable Columns Align

Posted by smartease - 2012/03/18 20:21

---

I've been trying to find how to align my table's data to center instead of left, found this thread <http://www.ari-soft.com/ARI-Data-Tables/15150-How-to-I-get-the-data-to-vertically-align.html#15150> but I can't find where to add that CSS rule?

Hello,

Provided post about "ARI Data Tables" extension, not about "ARI Smart Content". Provide a link to a page where we can see a table on your site so we can help.

Regards,  
ARI Soft
