
ARI Data Tables upgrade to Joomla 2.5.3...

Posted by pmarks - 2012/03/20 15:26

Will an updated version of ARI Data Tables will be released to work with Joomla 2.5.3 please?

If so what might be the timescale for this?

Joomla 2.5.3. is a security release to overcome the privilege escalation vulnerability in previous versions.

Is it likely ARI Data Tables will work with Joomla 2.5.3 please?
