Side Menu won\'t slide over ARI Data Table article

Posted by misterg2 - 2012/03/23 11:57
_____

I have a side menu where the submenus slide out when a main menu item is selected. They will not slide over the table article generated by ARI Data tables. This makes side menu unusable for this article. Top menu is OK. Is it possible to allow this?

Hello,

Where we can see described problem?

Regards,
ARI Soft
