ARI tables + ARI sexy lightbox not working togethe

Posted by studebaker1925 - 2012/03/28 15:04

_____

Please see my post here:

http://www.ari-soft.com/ARI-Sexy-Lightbox-Lite/26810-Sexy-Ltbx-lite-not-working-rite-with-ARI-tables.html#26811

I am posting in both places since I don't know the reason for the problem.

Thanks

_____

You sent me a reply as follows in the sexy Lightbox forum but the post gives an error when I try and read it in the forum:
(http://www.ari-soft.com/ARI-Sexy-Lightbox-Lite/26810-Sexy-Ltbx-lite-not-working-rite-with-ARI-tables.html#26830)

404: Not Found

Sorry, but the content you requested could not be found

Your reply by email was:

Message:

It doesn't work because "ARI Sexy Lightbox Lite" is initialized on page load, "ARI Table Sorter" change table elements dynamically when page is changed so new element is not associated with the lightbox.

You can use "ARI Data Table" widget instead of "ARI Table Sorter".

Regards,
ARI Soft

_____

I changed the table type to "ARI Data Table" but that did not cure the problem. The page http://www.automaxionltd.com/co-crystal-formers.html now shows the first table using ARI Data table, not working, the second using ARI Table sorter but with the images popping up correctly. YOU NEED TO REGISTER on the site to see the page I describe.

_____

Download and upgrade "ARI Data Tables" module and clean browser's cache. After this "ARI Sexy Lightbox" ("ARI Sexy Lightbox Lite") will work with "ARI Data Tables" widget from "ARI Data Tables" extension.

Regards,
ARI Soft
