ARI Data Tables Can\'t Use Picture in First Column
Posted by adam.singer - 2012/03/29 19:22

_____

Our Setup
Latest ARI Data Tables
Using CSV Import Method
Joomla 2.5

When we try to put a picture in the 1st column of the 1st row via in our CSV file then that first row disapears on the webpage when we go to view it. We need our pictures in the 1st column, please send us a fix. Thank you!

Note: When we have the exact same string in the last column it shows up correctly.

Hello,

Send your CSV file and screenshot(s) of module settings page by email and a link to a page where we can see a problem so we can investigate it.

Regards,
ARI Soft
