Speed loading data
Posted by megan - 2012/07/27 19:43

_____

We have a standard sql statement that taks 10 mil sec on server.. but it takes 20+ sec to load the data page. Any ideas to make it faster.
Tried turning off filter and scroll with no luck.

_____

Hello,

If your query loads a lot of records, only possible solution to split the table into several tables.

Regards,
ARI Soft
