
help ari tiny table sorrting problem

Posted by moivan - 2012/10/10 13:56

hi,
i'm using tiny table from ari data tables module and just realize there is strange sorting behaviour. is there any setting i should set to make it works good?

thanks,
Mo.

Hello,

Could you explain what do you mean under "strange sorting behaviour"? Can we see the problem?

on the image below, i'm sorting the table based on PUS column but the value on the row under it didn't sorted right.

<http://www.ari-soft.com/images/fbfiles/images/tabelprobs001.jpg>

the site is under developement on my localhost so i can't give you a live link.

We can't reproduce the problem on our test server. Could you reproduce the problem an online server and provide a link to a page where we can see the problem?

Regards,
ARI Soft
