## Link to images stored in local folder

Posted by pk2kpitaes - 2012/10/19 11:25

---

Hello,

How I can create a link to display all pictures stored in a local folder?

Thank you very much

Hello,

Is image name based on value from the column (in your case 142400)?

---

Yes!

The idea is to link the value to be displayed by clicking the images stored in a folder for that value.

Thank you

Best regards

Thank you very much for your quick response!

As always excellent!

Best regards
