---

Hi

I have a csv table and my client only want 4 entires per page... how do I do this?

```
{arjdatatable}
{aricsvtable file="data/csv/events.csv" delimiter="|" cellpadding="3" cellspacing="1"}
{aricsvtablecolumns}
{aricsvtablecolumn id="Society"}{/aricsvtablecolumn}
{aricsvtablecolumn id="Congress Name and Location"headerClassName="head"}{/aricsvtablecolumn}
{aricsvtablecolumn id="Date"headerClassName="head"}{/aricsvtablecolumn}
{aricsvtablecolumn id="Link" headerClassName="head"}{coltemplate}{/coltemplate}{/aricsvtablecolumn}
{/aricsvtablecolumns}
{/aricsvtable}
{/arjdatatable}
```

Thanks

Hello,

Use the following code:

```
{arjdatatable customPagination="4,10,25,50" iDisplayLength="4"}
```

Regards,  
ARI Soft
