Pagination

Posted by mkraft - 2013/11/05 13:30

_____

Hallo,

how do I get the pagination like on your demo page ? jQuery UI Theme blitzer

My one look like this, very squeezed

 http://www.ari-soft.com/images/fbfiles/images/pagination_01.JPG

Thanks for your help

Martin

_____

Hello,

Could you provide a link to a page where we can see the problem. It can be a problem with site template styles.

Regards,
ARI Soft

_____

Hallo,

sorry but the page is not not yet accessible.

But why you have demos and at the end the template style is not the same. Is ist possible to get a upgrade or anything like that ?

I send you an E-Mail with a screenshot what I get from firebug, may be it help.

Thanks
Martin

_____

As we wrote in our previous mail, it can be a problem with site template styles so we can investigate the problem if you send a link to a page where we can see it.

Regards,
ARI Soft

_____

I have same issue on a rocket theme - Clarion

Larger text & padding would be nice.
Don't expect to have more than 100 rows to be returned (if that is an issue). http://www.ari-soft.com/images/fbfiles/images/datatable_scrunch.jpg

Hello,

This problem with site template styles. Add the following code to "CSS Styles" parameter in module settings:

.ari-data-tables .paging_full_numbers .ui-button {padding: 2px 6px;}

Regards,
ARI Soft

_____

Awesome response time!

Added change and it works great!
ARI Data Tables are a great asset to my site!

Have been using it since I went to Joomla.

Just updated components and started doing some tweaking.
Having the footer show more than a couple tiny arrows is really helpful and makes site a lot more user friendly.

Thanks

This problem with site template styles. Add the following code to "CSS Styles" parameter in module settings:
.ari-data-tables .paging_full_numbers .ui-button {padding: 2px 6px;}

Thanks, this helped me as well.
Regards
