
Header color in HTML Table

Posted by tecidiomes - 2014/03/26 17:07

I have tried to change the Header color and background-color in table type: HMTL table without luck. It works if I chose ARI Data table, but not with HTML table.

Hello,

Could you provide a link to a page where we can see the table?

Regards,
ARI Soft

jQuery UI themes can be used only with "ARI Data Table" widget.

If you want to change styles of a plain HTML table, it is necessary to use custom CSS rules which can be placed in "CSS Styles" parameter.

This is the code I pasted in CSS styles:

```
{ $id }_wrapper TABLE.dataTable THEAD TR TH
{
background-image: none;
background-color: #000000;
color: #ffffff;
}
```

It works with ARI Data table, but not with HTML table

Use the following code:

```
#at_333_wrapper TABLE THEAD TR TH
{
  background-image: none;
  background-color: #000000;
  color: #ffffff;
}
```

Hi,

I'm using the plug in with a .csv file and would like to know how can i change the header background color?

Thank you in advanced.

Hello,

It is possible to use the following code in "CSS Styles" parameter in module settings:

```
{ $id } TH {background-color: red;}
```

Regards,
ARI Soft
