
How to use ARI Data Tables correctly ?!

Posted by Sue1688 - 2014/04/08 10:55

Hi,

I just installed your ARI Data Tables. After completed the columns settings, I only see my csv raw data on the frontend, not the whole table. Please help to check my setting (see the attachment) http://www.ari-soft.com/images/fbfiles/files/ARI_Data_Tables___Installation_Problem.zip .

Thanks & regards,

Sue Lin

Hello,

Could you send a link to a page where we can see the table?

Regards,
ARI Soft

Hi,

Thanks for your reply. Please check below link which ARI data tables can't normally appear on the frontend.

Set "HTML table settings -> Show header" parameter to "Yes".
