
ARI Data Tables returning \n

Posted by tanaED - 2014/04/17 18:01

Hi, I've searched the forum but can't find a similar issue. We've updated our client's site from Joomla 1.5 to 3.0, and with it, updated the ARI Data Table plugins and modules. I'm pulling content into the article using this code:

```
{aridatatables moduleId="237"}
```

However, when you look at the page on the site, instead of data being displayed, there's just this showing:

\n

It's happening in all instances on all articles. Here's a specific example - please click the "Expand" link on the page next to the title "CM Large Cap Value vs. Russell 1000 Value in Down Quarters":

<http://test.centman.com/joomla3/investment-strategies-cm/cm-large-cap-value/performance.html>

Thanks in advance!
