
Some problem from stupid noob))

Posted by Bin - 2014/06/16 17:39

Thanks guys for amazing extentions.

I have some problems in using Data Tables. My questions:

1. Suppose to use CSV file like database, how may I oranize structure of CSV when i need such fields:

#---	Name---	Date---	Status---	Download
1---	My doc.pdf---	10.10.12---	actual---	"download image whith link to file"

Question two: Can I hide field "Download" from not registered users?

Thnks alot!
