
Hide Column In Data Table PDF

Posted by connell.gosling - 2014/09/01 13:15

Hi Ari Soft,

I'm loving that I can generate PDFs straight from a data table, however, we want to hide one column from the PDF, but still show it in the table. Is there a way to generate the PDF excluding one column?

Thanks!

Hello,

Sorry, but the extension doesn't support this ability.

Hi,

Thank you for your quick reply! Thanks anyway, I'll find another way to generate the PDFs we need.
