
Dynamic Queries?

Posted by jptarry - 2014/09/24 22:59

is it possible to create tables on the fly (dynamically) ?

Hello,

Do you want to create an SQL queries dynamically?

The extension supports ability to use request variables in "WHERE" clause of "SELECT" SQL query or the module can be loaded with help of "Module Plant" plugin and SQL query can be overridden in plugin code. You can use a custom PHP code to generate query (for example DirectPHP plugin can be used for this purpose).
