
Purchased module-followed inst-no data is availabl

Posted by melvinnunez - 2014/10/11 01:45

Hello,

I just purchased the module, all I need is to display a simple table from a csv file. I followed the instructions and just cant configure it right.

Please can any body help me?

Thanks in advance.
Melvin.

Hello,

Send screenshot(s) of module settings page by email please and a link to a page with the module so we can investigate the problem.

Regards,
ARI Soft
