Data Table Results Title From Search Input
Posted by leesarrasin - 2014/11/20 17:31

_____

Hi,

Love the product! I'm able to create really nice output from my database data.

Is there any way to add the search field argument as a title to my reports? I input titles of songs to find the data that I've collected about them and would like to add that as a title to the report.

Thanks,
Lee

_____

Hello,

Could you provide a link to a page with the report?

Regards,
ARI Soft

_____

Hi,
Here's the link to the report:
http://leesarrasin.com/index.php/song-report/song-ratings-report

I'm looking to add some header information before printing the report because it just prints the table itself.

Thanks,
Lee

_____

Sorry, but the extension doesn't support this ability.
