
Help please change the file encoding to UTF-8

Posted by bankliga - 2010/07/07 05:49

Help please change the file encoding to UTF-8. I tried using Excel, but the problem with the coding not disappeared. I attach a file and a link to the page

link http://www.bankliga.ru/index.php?option=com_content&view=article&id=214&Itemid=30 http://www.ari-soft.com/images/fbfiles/files/komand200510_4.zip

Hello,

This issue can be fixed in two ways. The first, don't change the CSV file and set 'CSV -> File Encoding' parameter in module settings to WINDOWS-1251 or use file in UTF-8 encoding. You can find it in attach.

Regards,
ARI Soft http://www.ari-soft.com/images/fbfiles/files/komand200510_4_copy.zip

Hello,

Find converted file in attach, please. BTW, you can set 'CSV -> File Encoding' parameter in module settings to ISO-8859-1 if you want to use your file in current encoding.

PS: Notepad++ can be useful for converting files from one encoding to another.
