Hi,

Setting number of pages to display has no effect on the table.

Conflict with another script?

I can send a test url.

Thanks

Hello,

Could you send a link to a page where the problem occurs and screenshot(s) of module settings page by email?

Hi,

I haven't heard back on this... Any solution?

Thx

We sent the following answer by email 5 days ago:

Default paging doesn't contain 3 items per page option. Set "Custom pagination" parameter to 3,10,25 value for example.
