Hello,

Could you send a screenshot with comments where we can see the problem? The tables look fine for us.

As you can see the first column border line is missing. http://www.ari-soft.com/images/fbfiles/images/Screenshot_2015_04_18_08.jpg

It is designed in that way. Populate "CSS Styles" parameter in module settings with the following value to add left border:

`.sortable TR TD:first-child {border-left: 1px solid #c6d5e1;}`
