
Chancing content of a table

Posted by Peter Kammerhofer - 2015/05/08 14:58

I am trying to implemet a inventory-table to the frontend, where user can modify there own Items.
eg.

USER 1 - Laptop Brand JVC - Nr.: 123x432

is this possible with ARI ore not?

Thank you for answering to a newbi

:(

Hello,

The extension doesn't support ability to add, edit or delete data.

Regards,
ARI Soft
