how to pass parameters to the query sql

_____

hello,
how to pass parameters to the query sql
you have a tutorial, an example
thank you

Re:how to pass parameters to the query sql

_____

Hello,

It is possible to use request variables in "WHERE" clause of SQL query. For example if want to use "product_id" request variable in an SQL query, it will look like:

```
SELECT
 id,
 name
FROM
 products
WHERE
 id = {$REQUEST:product_id}
```

Re:how to pass parameters to the query sql

_____

Hello,
so I can use the variables in my forms

such as $ _ GET or $ _POST you simply vriefier they are between two {}

```
SELECT
id
name
FROM
products
WHERE
period = '{$ _ GET }'
```
----
or

```
SELECT
id
name
FROM
products
WHERE
period = {$ _ POST }
```

Hello,

It will look like:

```
SELECT
  id,
  name
FROM
  products
WHERE
  period = {$REQUEST:period}
```
