## Default row #

---

Is there a way to set the default # of rows to 5? I set it to 5 in the module Manager, but it still shows 10. I can set more than 10, but not less.

Hello,

If you use "ARI Data Table" widget ("Choose table type" parameter is set to "ARI Data Table"), add 5 value to "ARI Data Table -> Custom pagination" parameter. For example set the parameter to 5,10,15,50 value.

Regards,  
ARI Soft
