What\'s new? / Update List
Posted by Moh.Aw - 2015/08/10 11:17

_____

Hello,

I just saw that there is a newer version (1.15.0) available for download than I have installed. Is there a list of what has been changed somewhere?

_____

Hello,

Module settings page was updated. Some parameters were moved to "Advanced" tab, some re-ordered and removed to provide more easily configuration of the module.

Regards,
ARI Soft
