
Syntax for a variable \$ _REQUEST [sales][0]

Posted by vuck - 2015/08/31 19:55

Regards,

I understand that the correct syntax for the variable \$ _REQUEST is: {\$REQUEST:one}

But I have a variable \$ _REQUEST that returns an array . So,

What is the syntax for a variable \$ _REQUEST ?

Thank You very much,

Roberto

I found the solution : {\$REQUEST:sales:0}
