
Reduce font and change color

Posted by giorgiofox - 2015/09/07 14:42

Hello,
I'm using on a Joomla 3 Ari Data Table and I need to reduce font size, and change the alternate row purple color.. can someone please explain how to do it?

Hello,

Could you send a link to a page with the table?

Hi,

I want to achieve the same. Change the odd,even row colors to something else than the standard purple and white as well as the font color.

Could you please show me where and how to achieve this?

Regards,
Ben.

Hi

No matter what JQuery UI Theme I choose, the row background remains these colors.

Regards,
Ben.

Add the following CSS rules to "CSS Styles" parameter in module settings or to a site template CSS file:

```
BODY #fav-introwrap TABLE.dataTable TBODY TD {color: red;}
```

```
TABLE.dataTable TBODY TR.even {background-color: green;}  
TABLE.dataTable TBODY TR.odd {background-color: gray;}
```

```
TABLE.dataTable TBODY TR.odd TD.sorting_1 {background-color: orange;}  
TABLE.dataTable TBODY TR.even TD.sorting_1 {background-color: yellow;}
```
