
Language settings not possible any more ?

Posted by johnny@ejs.dk - 2015/10/06 10:10

Hi

I have updated my site and also the Ari Data Table module - now Ver. ARI Data Tables v. 1.15.2

BUT

Some of my Danish settings in the module has dissapeared ?

Is there somewhere else the settings has to be changed ?

Sincerely

Johnny Ejs <http://www.ari-soft.com/images/fbfiles/images/Udklip2-186888e6aa04dd99995b6b77f9409edc.PNG>

Hello,

v 1.15.2 is used to be compatible with Joomla! v. 3.4.4+. It doesn't change module settings. Probably an old version of the module was used before or some changes were done on Joomla! v. 3.4.4 and then the module was updated.

Regards,
ARI Soft

Hmm?

I did update the site before the module - but still each of my 45+ Data Tables modules did have settings for writing Danish for ie. Search: Showing X to XY of ...

Not even a new module has theese settings anymore?

Sincerely
Johnny Ejs

Thank you for the explanation. All language labels were moved to language file:

/language/en-GB/en-GB.mod_aridatatables.sys.ini

Regards,
