
pie gchart percentage

Posted by dsubero - 2015/10/09 20:17

how can i show the entire number instead percentaje in pie chart?

3 instead 15%?

best

Hello,

Upgrade the module to v. 1.15.3. It contains "ARI GChart -> Pie Chart -> Slice text" parameter. Set it to "Value" value.

Regards,
ARI Soft
