Hello!

how add one rows to the top table?

or easier paint some column?

for example paint the third and eighth column

thank

Hello,

Set "Advanced styling" parameter to "Yes" and populate "CSS Styles" parameter with the following code:

```
{ $id } TBODY TD.ari-tbl-col-2 {background-color: red;}  
{ $id } TBODY TD.ari-tbl-col-7 {background-color: yellow;}
```
