
[SOLVED] Table header mouseover tips

Posted by cronmatic - 2015/11/17 02:44

Hello,

This is a brilliant extension. I love it. But can you tell me a few things:

1. Is there a way to display header information about a column when the end user moves the mouse over the header column.
2. Can I change the color of the table header? I have 32 tables on different pages and would like to change the color to match the football team that it represents. I would like to change the silver to red on one page and on the other change it to orange.

See the 2 links below for an example.

<http://quarterback.us/index.php/quarterback-stats/arizona-cardinals>

<http://quarterback.us/index.php/quarterback-stats/cleveland-browns>

Thank you for your time.

Regards,

Robert <http://www.ari-soft.com/images/fbfiles/images/info.png>

Hello,

1. Add the following code to "CSS Styles" parameter in module settings:

```
#{$id}_wrapper .fg-toolbar.ui-corner-tl.ui-corner-tr {background: none red !important;}
```

It is also possible to change a theme. For this use "jQuery UI Theme" parameter in module settings.

2. The extension doesn't support this ability.

Thank you very much for your reply. I am also trying to change the font color of the words Show entries Search to coordinate with the color change but it is not sticking.

My code in the CSS styles box is:

```
{ $id }_wrapper .fg-toolbar.ui-corner-tl.ui-corner-tr {background: none #FAAC3D !important;}  
{ $id }_.ui-widget-header {color: #000000 !important;}
```

Could you help with changing the color of those words correctly?

Also would this extension be of good use for the tool tips - <https://www.nonumber.nl/extensions/tooltips#!>

Thank you again for your reply.

Regards,
Robert

Add the following code:

```
#{ $id }_wrapper .fg-toolbar {color: red !important;}
```
