
Table header align

Posted by nex0r - 2015/11/25 15:45

Hi,

Is it possible to align the table header row to the left?

The table is generated from a csv

I looked at the module settings and can see column options for alignment but I can't work out what the column ID's are?

<http://www.ypmrc.co.uk/index.php/results>

Thanks

Hello,

Add the following CSS rule to "CSS Styles" parameter in module settings:

```
.ari-data-tables TABLE TH {text-align:left;}
```

Regards,
ARI Soft
