
Read a E-mail adress

Posted by Leif_e - 2016/03/11 22:08

Hi again

I have a new problem, I have a member database, and i have a field with a E-mail adress

I can not read this E-mail adresse with Ari data table, the system times out

I'am using datatype varchar

Thanks

Leif

Hello,

Try to disable "Content - Email Cloaking" plugin.

Regards,

ARI Soft
