Other port number than 3306

Posted by patrickstroobach@gmail.co - 2016/05/24 11:18

_____

I have multiple mysql database at home with different IP's.
When i portforward wan 3307 to a ip2 and 3306 it isn't working.
If i portforward wan 3306 to a ip1 or ip2 and 3306 it is working.

Can someone please help me ?

When i use a other port than 3306 the page loading time ends with a error "Additionally, a 500 Internal Server Error "!

_____

Hello,

Could you specify what value is used for "SQL -> External database -> DB type" parameter ("MySQL" or "MySQL (mysqli)"? Could you send a screenshot of "Choose source type -> SQL" parameters section by email?

Regards,
ARI Soft

_____

DB-TYPE MYSQL
xxxxxxxx.synology.me:3306
eigen_database
userX
passwordX

SELECT naam, url, image_url FROM tableX

_____

Download and update "ARI Data Tables" module. After this set "Choose source type -> SQL -> External database -> DB Type" parameter to "MySQL (mysqli)" value.

If it doesn't help, could you provide a link to a page where the problem occurs and a temporary access to Joomla! backend by email so we can investigate the problem in more details?

Regards,
ARI Soft
