# Empty Source when creating a Data Table module

Posted by Laurent Zotto - 2016/08/28 09:08

_____

http://www.ari-soft.com/images/fbfiles/images/2016_08_28_11_21_34.png Hello

I've created and tested an SQL select with phpMyAdmin statement and added this to the SQL Queries.

No I want to add a module (or add this a page content). On the modules, when I open the "Data Source" selection, I get an empty popup window on MOzilla. On MS ie I get at least an erro 500!

Why?

Thank you in advance for your help

Best regards
Laurent Zotto

_____

Hello,

Could you provide a temporary access to your J! backend by email so we can investigate the problem?

Regards,
ARI Soft

_____

Does this mean I cannot use both modules together?

_____

They can be used together. Both extensions are enabled on your site. We added a fix to "ARI Photo Gallery" on your site.

Regards,
ARI Soft
