
Show Header even if query result empty

Posted by tyner - 2016/09/13 10:29

I have a query which sometime can be empty

When it is empty, it shows "No data available." on my website

Is it possible to Header even if query result empty ? How please

Many thanks for your help

Hello,

The extension doesn't support this ability, but it is supported by ARI Smart Content - Data Table.

Yes, it is possible to remove the message from /modules/mod_aridatatables/tmpl/genhtmltable.php template file.
